**ORDER**

The issue of unserviceable wooden furniture lying in Primary, Middle, Secondary and Higher Secondary Schools was examined by the government. These furniture are occupying precious space in the school. In many schools even the half of the room is occupied by these unserviceable furniture and in remaining portion of room, classes are going on. As a one time measure, the government has relaxed the relevant financial rules for disposal of the unserviceable items as follows.

A Committee headed by the Headmaster/ Principal of School consisting of 2 other teachers will be formed and this committee will call local quotations from nearby areas and dispose of these items then and there. Proper notice for disposing of these items should be placed on notice board of the school and office of the village Panchayat. The value of these unserviceable furniture will be deposited in government treasury and the receipt of the same will be forwarded to the respective zonal offices for record. This process should be completed within a period of 3 months. All Deputy Directors of Zones and ADEI will supervise this process and after 3 months a certificate should be given to the Head Quarters by the respective Headmasters/School that the unserviceable items are disposed off. In case if any particular school does not have any unserviceable items to dispose off, the Headmaster/Principal of said school will also give certificate stating therein that no unserviceable furniture is there in his /her school.

  
(D.P. Dwivedi, IAS)  
Director of Education
